FOR IMMEDIATE RELEASE

Liberty Link LLC and RuralWeb Solutions LLC Announce They Are Joining Forces

Holden, Missouri (May 02, 2022) - Liberty Link and RuralWeb Solutions are happy to announce we are joining forces in the interest of combining our resources and skills to better attain our common goal of helping our communities eliminate the digital divide by providing access to high-speed broadband internet.

We are excited for this opportunity to further serve and improve our communities and hope to continue to build strong relations with our customers and communities as well as having great customer service for our current and future customers.

Members of the RuralWeb team have joined Liberty Link and we are working to make this transition as smooth as possible for RuralWeb customers. We will not be making any immediate changes as we are still evaluating the best way to combine our businesses together and will share details as they come.

RuralWeb Solutions was launched in 2020. RuralWeb serves the areas of Creighton, Garden City, Dayton, and Urich with high-speed fixed wireless broadband.

Liberty Link was launched in 2019. Liberty Link serves the areas of Holden, Kingsville, La Tour, Pittsville, Rose Hill, and Windsor with high-speed fixed wireless and fiber optic broadband.
